

Call for papers

Instructions for authors

These information aims at drafting papers in order to provide appropriate outputs to the edition team.

Topics

Any survey or research works in connection with wind energy and biodiversity can be submitted.

Presentations may address every stage of a wind farm, from preliminary survey to dismantling, including building and repowering ; while at the same time, discussions will also cover habitats such as species, direct or indirect damages, and means to assess and reduce them.

Public

Wind energy stakeholders, researchers, state services and conservationists

Oral communication

The oral interventions will be based on a slide presentation and will last 20 minutes. They will be followed by 10 minutes of discussion with the public.

Submission format

Speakers should submit a file under .odt or .docx) providing the following information:

- Title with possibly a subheading
- Author(s), organisation and mail
- English and French abstracts (maximum 1 500 characters)
- The French or English paper should be structured that way :
 - Motivation, tested assumptions and aims
 - Methodology
 - Summary outputs
 - Interpretation, findings, prospects and possible developments

A template presentation under is available on the seminar website ([.docx](#) and [.pptx](#)).

BIODIVERSITÉ

Submission process

Papers should be sent to Geoffroy MARX, in charge of the LPO action plan « Wind farm and biodiversity »: geoffroy.marx@lpo.fr

Selection process

All submissions will be reviewed to select 9 items regarding onshore and offshore wind energy papers.

The selection will be based according to the following criteria:

- Title : connected with the topic covered by the seminar
- Quality, originality and innovation of the proposed paper
- Contribution to improve environmental integration of the wind farms.

The final selection will also seek to obtain a varied panel of themes and to ensure diversity among the speakers (men/women, French/foreigners, researchers/NGOs/representatives of the wind energy sector, etc.).

Calendar

Submission date	Selection process	Response date	Final programme
30th June, 2021	July 2021	July/August 2021	September 2021
